

Dekesi D-7430-CDQ

30-Port Charging Case for Conference Microphones

Key Highlights

- Simultaneously charges **up to 30 receivers / transceivers** at once
- **Fast charge** mode — full charge in approximately **3 hours**
- Maximum charge cycle up to **8 hours** for full capacity
- Connectable power input for **flexible deployment**
- Doubles as a **storage case** for receiver devices when not in use
- Compact **all-in-one** design — charge & store in a single unit
- Ideal for **Dekesi wireless conference** microphone systems

The **Dekesi D-7430-CDQ** is a professional 30-port charging case designed for Dekesi wireless conference microphone systems. It supports simultaneous charging of up to 30 receiver or transceiver units, with a fast-charge cycle of approximately 3 hours and a maximum charge time of 8 hours. Beyond charging, the unit serves as a secure storage solution for devices when not in use — making it an essential accessory for large-scale conference deployments.
