

Dekesi D-6183-12

Full HD 1080P PTZ Conference Camera — 12x Optical Zoom

Key Highlights

- **Full HD 1080P** @ up to 60fps — smooth, clear video output
- **1/2.8-inch Sony CMOS sensor** — 2.07 MP high-sensitivity imaging
- **12x optical zoom** — sharp close-up at any distance
- **Advanced ISP image processing** — brightness, detail & color accuracy
- **3-in-1 Auto Focus** — intelligent, adaptive & hands-free operation
- Multi-interface: **HDMI / SDI / USB / LAN** wired & wireless
- Optional **5G WiFi module & PoE** for flexible deployment

The **Dekesi D-6183-12** is a professional Full HD 1080P PTZ conference camera designed for online meetings, video conferencing systems, and live recording. Equipped with a 1/2.8-inch 2.07MP CMOS sensor and 12x optical zoom, it delivers crisp 1920×1080 resolution at up to 60fps. Advanced ISP image processing ensures accurate color reproduction, uniform brightness, and sharp detail across all lighting conditions. The 3-in-1 auto focus system adapts intelligently to subject movement, reducing manual intervention. With HDMI, SDI, USB, and LAN interfaces — plus optional 5G WiFi and PoE — it integrates seamlessly into any professional AV or conference system.

TECHNICAL SPECIFICATIONS

Model	D-6183-12	Video Interface	HDMI / SDI / USB
Device Type	Full HD PTZ Conference Camera	Network Interface	LAN (Wired Ethernet)
Image Standard	Full HD 1080P	Wireless	Optional 5G WiFi Module
Resolution	1920 × 1080	PoE	Optional
Image Sensor	1/2.8-inch CMOS	Color Reproduction	Natural, True-to-Life
Sensor Resolution	2.07 Megapixel	Light Handling	Adaptive Brightness & Contrast
Optical Zoom	12x	Control Protocol	VISCA / Pelco-D / Pelco-P
Frame Rate	Up to 60fps	Applications	Conference, Webinar, Live Recording
Image Processing (ISP)	Advanced ISP Technology	Suitable Environments	Boardroom, Lecture Hall, Training Room
Auto Focus	3-in-1 Intelligent Auto Focus
