

Dekesi D-408Y

200W Premium Linear Column Speaker — 8 × 100mm Drivers

Key Highlights

- **8 × 100mm drivers** + 0.75" voice coil — linear array configuration
- Rated **200W**, peak **800W**, impedance **8Ω**
- Ultra-wide coverage: **120° × 120°** dispersion angle
- Frequency response **90Hz – 20kHz** — full voice reproduction
- Sensitivity **96 dB/M/W**, max SPL **120 dB**
- Premium slim column design — **131×150×966mm**, 11 kg
- Ideal for **large halls, conference centers & public spaces**

The **Dekesi D-408Y** is a premium linear column speaker featuring 8 × 100mm drivers with 0.75-inch voice coils, delivering 200W rated power and up to 800W peak output. Designed for installations requiring wide, even audio coverage, it achieves a 120°×120° dispersion angle with a sensitivity of 96dB/M/W and a maximum SPL of 120dB. Its frequency response of 90Hz–20kHz ensures faithful reproduction of voice and music alike. Standing at 966mm tall and weighing 11kg, the D-408Y combines high acoustic performance with a sleek, unobtrusive column form factor — making it the ideal choice for conference halls, auditoriums, houses of worship, and large public address systems.

TECHNICAL SPECIFICATIONS

Model	D-408Y	Frequency Response	90Hz – 20kHz
Speaker Type	Premium Linear Column Speaker	Dispersion Angle	120° (H) × 120° (V)
Driver Configuration	8 × 100mm	Sensitivity	96 dB/M/W
Voice Coil	0.75 inch	Max SPL	120 dB
Rated Power	200W	Dimensions (W×D×H)	131 × 150 × 966 mm
Peak Power	800W	Weight	11 kg
Impedance	8Ω	Applications	Conference Hall, Auditorium, PA System
